

Total Knee Arthroplasty Registry Study

Our research team at New York Orthopedics, in collaboration with the Nicholas Institute of Sports Medicine and Athletic Trauma is enrolling patients scheduled for total knee replacement surgery in a study investigating whether ambulatory or inpatient care results in better outcomes.

Where: virtual surgical outcome system (SOS) portal

Why: to help us collect patient reported outcomes

To be included in the study you need to: be scheduled for total knee replacement; have access to a computer and the internet; agree to complete pre-surgery, and post-surgery online surveys at various time points

If interested you will: be enrolled in the SOS portal pre-surgery; once you activate your SOS account, complete the questionnaires that are emailed to you pre-surgery, 2, and 6 weeks, 3, and 6 months, 1, and 2 years post-surgery

Are you scheduled for a total knee replacement surgery?

For more information or to reserve your place in our study **please check your email spam folder for an email asking you to activate your surgical outcome system (SOS) account OR contact *Susan Kwiecien* at:**
